

After School Enrichment Instructors Needed!

We partner with national and local experts to bring exciting, unique, quality experiences to young learners. We believe that children often discover a spark in their early learning years and we hope to offer inspiration along the way, providing them with an experience that just might propel them as they follow their pursuits and dreams on their education journey.

AlphaBEST Explorations needs passionate, creative instructors to facilitate enrichment workshops, after school in four Scituate area elementary schools. Choose to teach one or multiple classes per week. Sessions run in fall, winter, and spring with many exciting topics to choose from.

Our BEST instructors:

- ~ have experience and enjoy working with children in a group setting.
- ~ are fun and energetic.
- ~ have a passion for or expertise in a subject.
